

Cleaning Wipes

Art. 00769-01

Description: **Cleaning Wipes is a modern comfortable cleaning product for a wide range of applications. The low-fluff, tear- and smudge-resistant cloths with active surface structure are soaked with a powerful cleaning liquid.**

Application range: Cleaning Wipes is ideal for service fitters, recycling companies, mechanical workshops, farmers, forestry workers, etc. and wherever there is no water or soap available to clean hands. Cleaning Wipes are also used for rapid cleaning of tools, work surfaces, painted surfaces and vehicle cockpits.

Characteristics

- Active surface structure / impregnated with powerful cleaning liquid
- Gentle cleaning substances
- Leaves no residue and dries quickly
- High textile quality, soft and abrasive on both sides
- Dispenser drum and tear-off perforation

Benefits

- Stubborn soiling is gently removed
- Especially skin-friendly, with dermatological test rating "very good"
- Hands and parts do not need to be rinsed and dried
- Very broad range of application
- Simple cloth removal and reclosing

General instructions for use:

- Check the material compatibility of objects before use
- Pull wipes out of the drum and tear them off at the perforation
- Rub hands clean with a washing movement / wipe away dirt from objects
- In case of very heavy soiling, repeat the procedure with a new cloth
- Dispose of used wipes in accordance with legal regulations (depending on adhering dirt)
- After cleaning, apply a care cream (e.g. Graziosa / art. no. 06752-01) to the hands

Physical-chemical data:

Description:	Wipes soaked in white liquid
Colour:	blue
Smell:	fruity
Density at 20 °C:	1.010
pH value (aqueous solution):	5.0

Container sizes: Cauldron: 80 wipes

The information given in this data sheet is based on the properties and applications known to us. Blaser Swissslube AG is not liable for damages resulting from improper use of the products. In general, no legally binding effect can be derived from these data.
